

The Feurthstreet Lumber Factory Jazzband

Bringing the Party, Jazz Style!

Originating from Susteren (NL), The Feurthstreet Lumber Factory Jazzband (FLF) knows how to throw a musical celebration! Our seven-piece traditional jazz band has been swinging strong for over 30 years, earning a solid reputation at home and abroad.

From local jazz clubs to international festivals, we've lit up stages everywhere—from Maastricht's Jeker Jazz and Domburg's Jazz by the Sea to Aachen, Quedlinburg Swingt, Magdeburger Jazznacht and even Tunbridge Wells in the UK. But we also definitely come into our own in a smaller setting in a café or at a party. While performing, we want to convey the joy of playing and the joy of life. The connection with the audience is paramount and if our joy transfers to the audience then our performance is completely successful.

We deliver that classic “Old Style” jazz sound, with cornet, clarinet, trombone, banjo, bass, and drums—but always with our own distinctive twist.

Our repertoire spans timeless standards and blues from legends like Louis Armstrong, Sidney Bechet, Jelly Roll Morton, and King Oliver. But don't be surprised when you hear uniquely arranged tunes in the spirit of Meschiya Lake, Lillian Boutté, or Naomi & Her Handsome Devils. A true highlight of the band is vocalist Linda Koolen, a talented and versatile jazz singer who's been melting hearts and stealing shows for years.

With a loyal following across the Netherlands and beyond, the FLF Jazzband is ready to jazz up any event!

If we spark your interest, please contact us and we will discuss the possibilities!
